

REAL FUR POLICY UPDATE

Burlington is committed to the ethical sourcing of products in our supply chain, which includes the humane treatment of animals. Accordingly, Burlington will be limiting its sale of any produce made with real fur, including Angora. The only types of real fur that are still permissible are shearling, cashmere and alpaca. These types of fur are permissible because they are not pelts and the process of collecting the fur is considered humane.

Your cooperation with this policy is appreciated. We thank you for your continued support of our organization and our ideals of keeping animals safe – we truly value our partnership.
