Re: New Federal Safety Standard, ASTM F2670-17 on Infant Bath Tubs

Dear Burlington Vendor:

Effective October 2, 2017, all infant bath tubs (“Infant Tubs”) must be compliant with New Federal Safety Standard, ASTM F2670-17. This consumer safety specification establishes performance requirements, test methods, and labeling requirements to promote the safe use of Infant Tubs. Specifically excluded from the scope of this standard are products commonly known as bath slings, typically made of fabric or mesh. This notice is to ensure all Burlington vendors are made aware and will comply with the new safety requirements.

For more information about ASTM F2670-17 Infant Tub requirements, please see:

<https://cpsc.gov/newsroom/news-releases/2017/cpsc-approves-new-federal-safety-standard-for-infant-bath-tubs>.

Please reply back to product.eval@burlingtonstores.com to certify that you understand and agree that all Infant Tubs supplied to Burlington will be in compliance with ASTM F2670-17 safety requirements on or before October 2, 2017. Any Infant Tubs that are not compliant with this standard will be debited and destroyed at vendor’s expense.

Very truly yours,

BURLINGTON STORES
